

OKI Printed Circuits/OKI Circuit Technology Merger

Thank you for your kind attention and long-standing relationship with OKI.

We would like to inform you that Oki Printed Circuits will integrate with Oki Circuit Technologies and operate, effective April 1, 2021, as OKI Circuit Technologies Co., Ltd.

1. Background and Objectives of the Merger

The background to this integration is to merge two companies that develop high-multilayer, high-quality PCBs by integrating and pooling sales, engineering, and manufacturing resources, with the objective of bolstering business foundations and expanding business scales.

Alongside this merger, we will optimize sales and production maps to make more effective use of management resources and improve operational efficiency.

Ultimately, this integration will diversify our product lineup, strengthen technical capabilities, accelerate new product development, and expand our range of valuable services, thereby enhancing competitiveness and enabling us to make more valuable contributions to our customers in the ever-growing high value-added PCB market.

2. Name after merger: OKI Circuit Technology Co., Ltd.

3. Merger date: April 1, 2021

4. Head office address: 15-68, Takarada 1-chome, Tsuruoka-shi, Yamagata, 997-0011 Japan

We apologize to all parties concerned for any inconvenience this transition may cause. We pledge that all our employees will take this opportunity to renew our dedication to your growth and prosperity.

If you have any questions about this merger, please contact the following phone number.

We appreciate your understanding and cooperation and ask for your continuing patronage.

Telephone: +81 3 5445 6330

Sincerely yours,

Masahiko Morioka

President and CEO

OKI Printed Circuits Co., Ltd.
